

Attorney Docket No.: MUN-P1021

REMARKS

Applicant requests consideration of pending Claims 1, 3-10 and 31-40 as set forth above. The claims, as amended, include limitations not found in the cited art, such as variable direction control of jet discharge, variable fluid flow rates of jet discharge, jet nozzle dischargers, and movement of the user pad/direction of force/counter forces along multiple axes of direction. None of these elements are disclosed, taught or suggested in the art cited by the Examiner. For the reasons set forth in the prosecution history, Applicant submits that the claims in their current state are not anticipated or obvious in view of the prior art cited by the Examiner, and a Notice of Allowance is earnestly solicited.

The Examiner is invited to contact the undersigned should further discussion of the matters discussed herein or any additional matters be required to advance the prosecution of the instant Application. No additional fees are believed to be required for this Supplemental Amendment. If there are any fees necessitated by the foregoing communication, the Commissioner is hereby authorized to charge such fees to our Deposit Account No. 501,270.

Respectfully submitted,

D. Scott Hemingway
